ADVERTISING PHYSICIANS!

In the Detroit Free Press June 7, sixth page, under the head of "Distinguished Doctors" we see the names of the members of The American (Alopathic) Medical Association, who are meeting in that city, and the specialties in which they are engaged, and also the pictures of 28 of those who can afford it.

If this is their advertisement, and we think it is, we wish to congratulate the principal physicians among the Alopaths for their success as advertising physicians, and we feel sorrow for the common herd of Alopathic physicians who do not DARE to advertise. What does this meeting amount to, anyway? Is it anything more than a mutual admiration society and a free advertising scheme for its members? Will the rest of the Alopathic physicians call them "quacks" after this? We hope not, as the members of the American Medical Association have as much right to advertise as Dr. S. CLAY TODD and we wish to congratulate them on their success as Advertising Physicians.
